

## Ideation Phase

### Define the Problem Statements

Date	08 May 2023
Team ID	NM2023TMID20397
Project Name	Estimation and prediction of hospitalization and medical care cost
Maximum Marks	2 Marks

#### Customer Problem Statement Template:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Fatima is a 24-year-old woman from a rural community in SubSaharan Africa. She is married with two young children and has never attended school.	address the issue of low literacy rates in developing countries, particularly among women and girls in rural areas.	limited access to education due to financial constraints, cultural barriers, and gender inequality is a significant obstacle to achieving this goal.	low literacy rates perpetuate the cycle of poverty and inequality, limiting individuals' potential for personal and economic growth, and hindering social and economic development in communities and countries.	addressing this issue is critical for promoting a better future for individuals and communities, empowering individuals to reach their full potential, and creating a more equitable and just society.

PS-2	Ahmed is a 16-year-old boy from a low-income urban area in a developing country. He attends a local school, but his reading and writing skills are significantly below grade level.	address the issue of poor literacy skills and inadequate educational outcomes in developing countries, particularly among low-income students in urban areas.	inadequate teacher training, limited resources, and a lack of emphasis on literacy skills are significant obstacles to achieving this goal.	poor literacy skills and educational outcomes limit individuals' potential for personal and economic growth, reducing their opportunities for higher education, workforce participation, and civic engagement.	that addressing this issue is critical for promoting a better future for individuals and communities, empowering individuals to reach their full potential, and creating a more equitable and just society.
